Here we have inserted some dummy data

Here we can see that data has been inserted

After clicking update button here comes the update/add page again with pre-populated data

Save/Update Customer

localhost:8080/CRMWebTracker/customer/begin-update?customerId=12

Add/Update Customer Details

Customer Details

firstName: harendram

lastName: kumari

email: harendra@gmail.com

Save

[Go Back to Customers List](#)

Made with ❤ by Shubham

Here we are updating by inserting different data other than what we got pre-populated

CRM

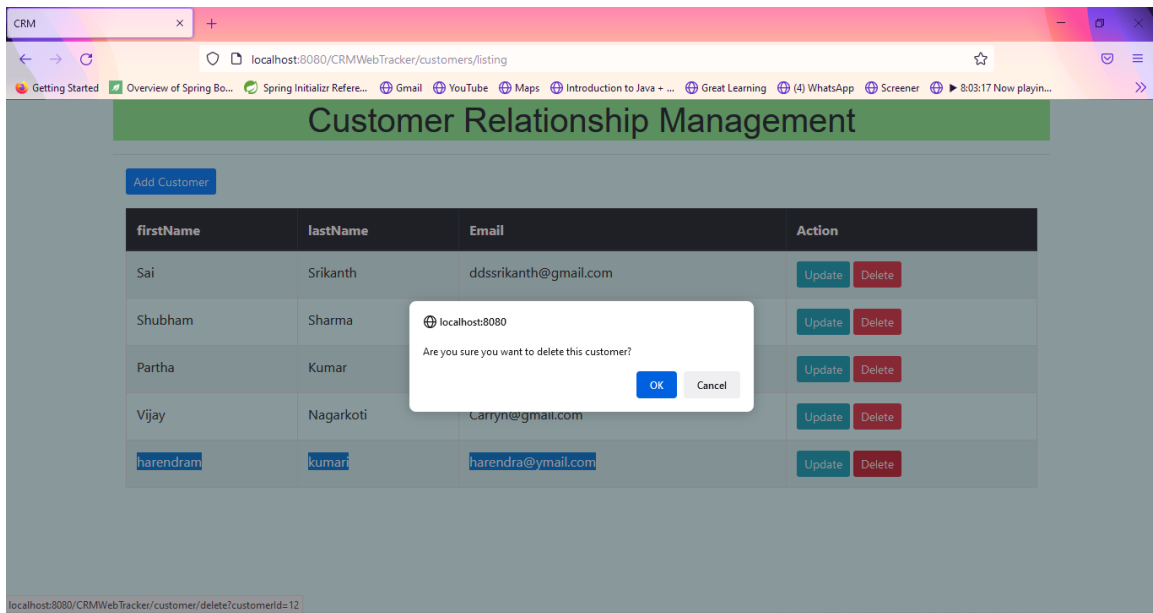

localhost:8080/CRMWebTracker/customers/listing

Customer Relationship Management

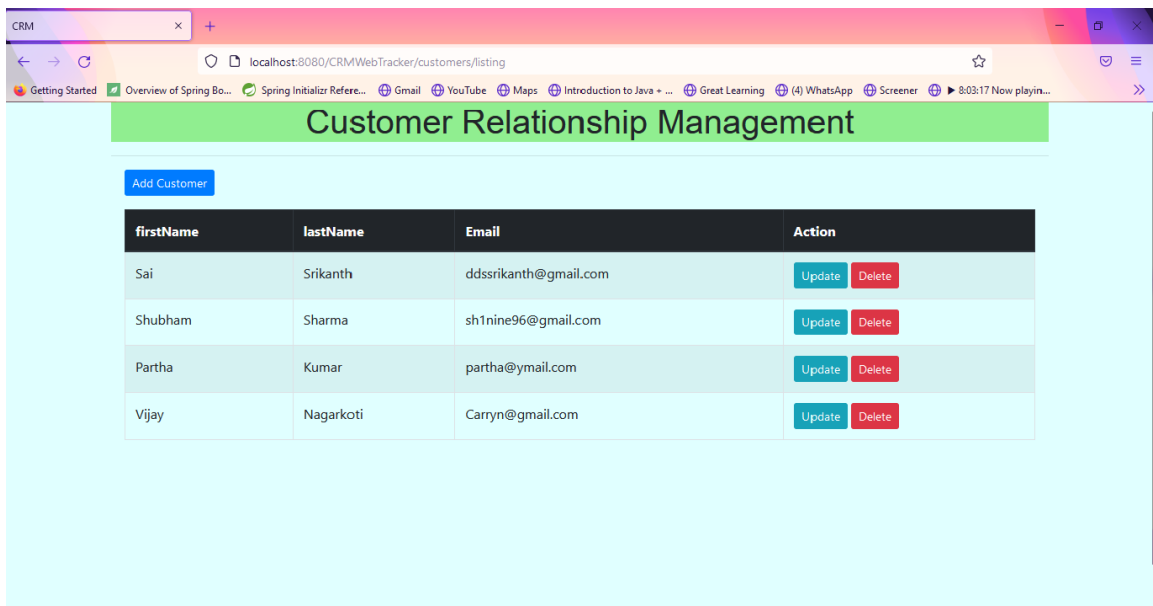

[Add Customer](#)

firstName	lastName	Email	Action
Sai	Srikanth	ddssrikanth@gmail.com	Update Delete
Shubham	Sharma	sh1nine96@gmail.com	Update Delete
Partha	Kumar	partha@gmail.com	Update Delete
Vijay	Nagarkoti	Carryn@gmail.com	Update Delete
harendram	kumari	harendra@gmail.com	Update Delete

Here we can see that our update has been successful, we were able to modify our data

Here comes the warning when we click the delete button to verify if we are sure to delete data entry

Here we can see that data entry has been successfully deleted
