# Here we have our Welcome/Home page

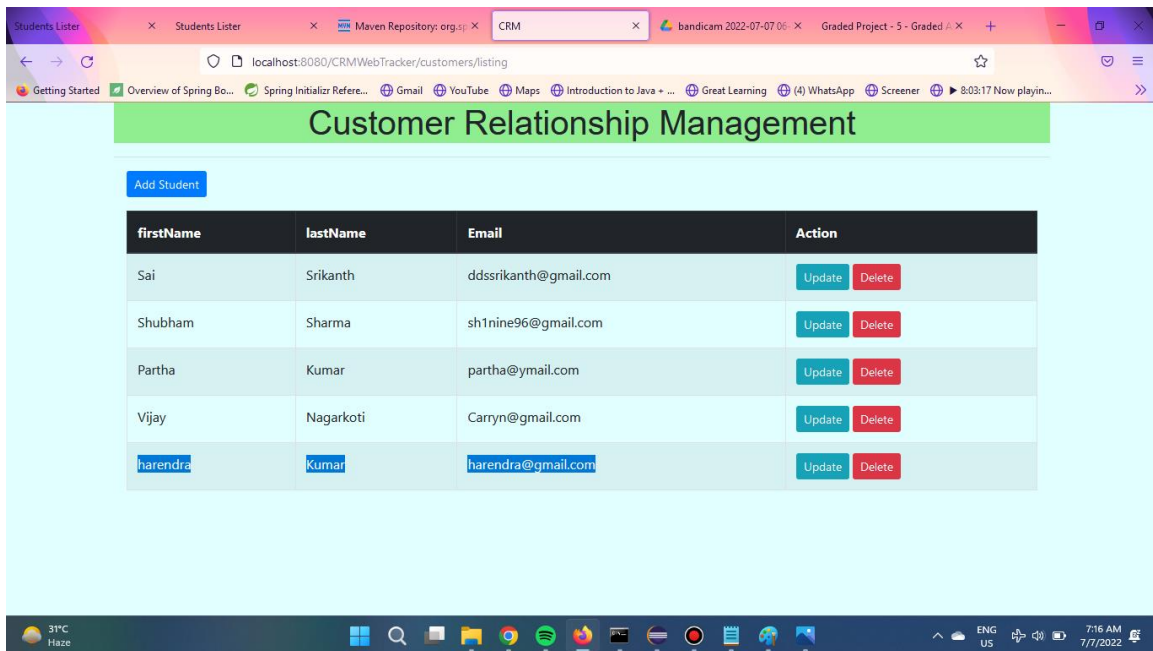

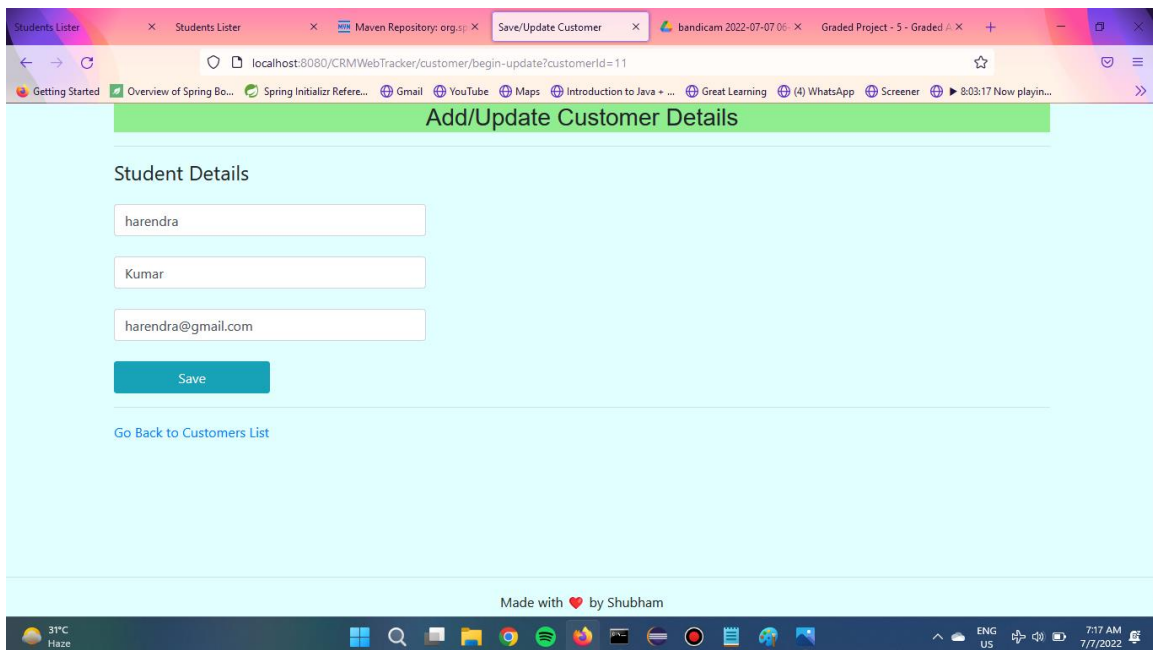

Here is our Main Page

**After clicking Add Button, this form page comes up**

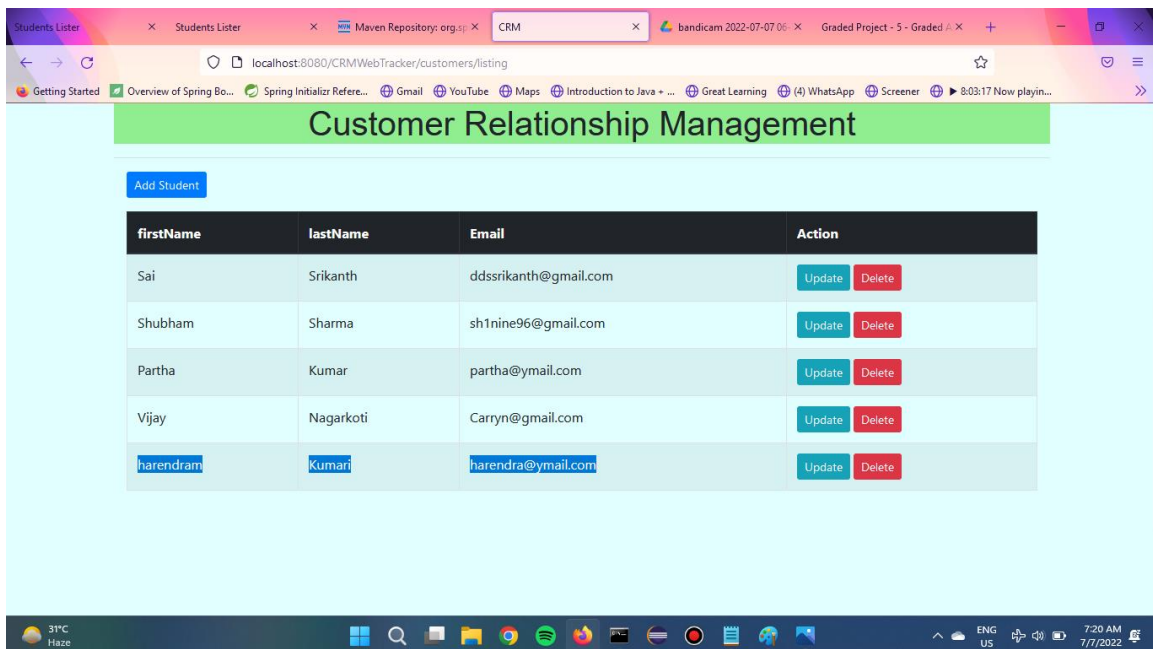

Here we have inserted some dummy data

**Here we can see that data has been inserted**

After clicking update button here comes the update/add page again with pre-populated data
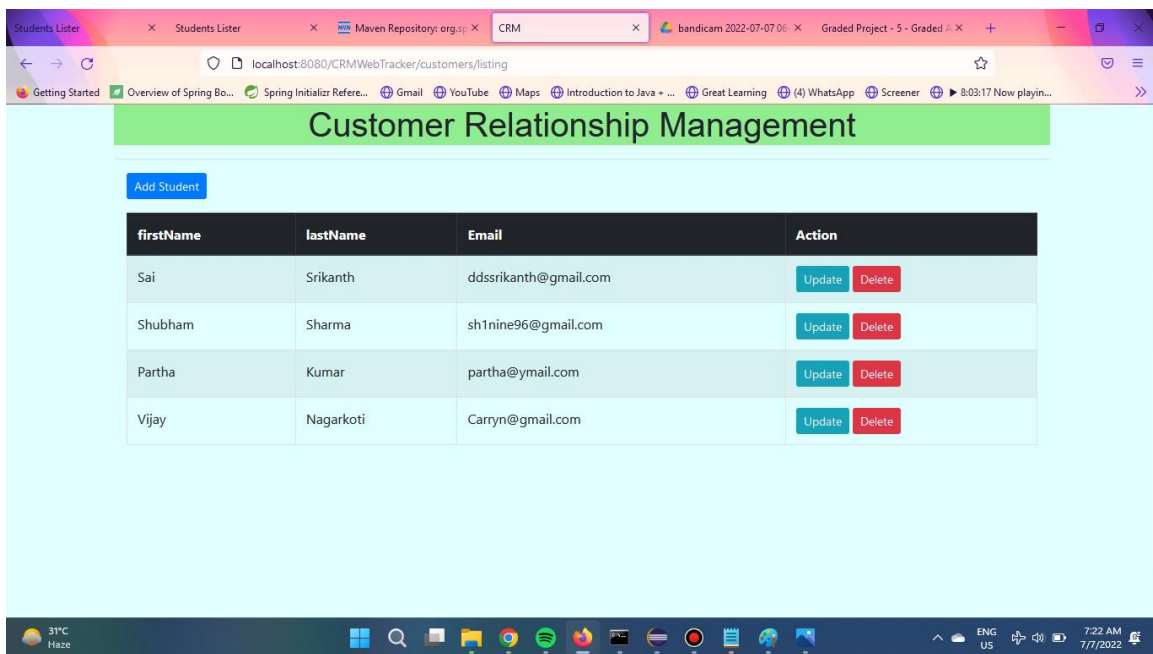

Here we are updating by inserting different data other than what we got pre-populated

Here we can say that our update has been successful, we were able to modify our data

Here comes the warning when we click the delete button to verify if we are sure to delete data entry

Here we can see that data entry has been successfully deleted
